"DOUBTLESS THE

Best Cough Medicine

IN THE WORLD."

[From one of the Oldest and very best Houses in America.]

Messrs. CUTLER BROS. & CO.

CINCINNATI, Ohio, March ..., 1872

I once send us ten gross small and five gross large "Vegetable Pulmonary Balsam." This is admitted the best Cough Medicine in the World (Signed) ALLEN & CO.

These parties have sold this Balsam for over thirty years.

[From one of Boston's most estimable citizens.]

No. 5 Worcester Sq., BOSTON, March 1, 1875.

Messrs. CUTLER BROS. & Co.

In ordering another small lot of your invaluable Vegetable Pulmonary Balsam,

I would like to tell you what I know about it, in order that others may have the benefit of my

EXPERIENCE.

Since this Balsam first came to my notice, in 184., I have kept it constantly in the house, never allowing myself to be out of it over night. In all that

TWENTY-FIVE YEARS,

it has not failed in a single instance in my own case to give the desired relief, and I will say the same in regard to my mother, whose

LIFE WAS SAVED

By it as I cannot but think. Hers was a case of Congestion of the Lungs, and although attended by a most skilful Physician, who seemed to fail you, ... so that we despaired of her recovery ... neighbor persuaded her to try this Vegetable Pulmonary Balsam. The result was most gratifying, I assure you.

SHE BEGAN TO IMPROVE

and recovery rapid. She is now over 80 years old, and is active and well. Whenever she gets a severe cold, which happens once in a while, she takes thirty to sixty drops, according to the violence of the cough, which has always yielded in a day or two by taking the Balsam only on retiring at night. With it the

IRRITATION

is at once subdued, and a good night's sleep secured. I will mention another case: that of a young lady acquaintance, who

BLED AT THE LUNGS

and coughed frightfully, had night sweats and was fearfully reduced. She left Boston for her country home 150 miles away, as we supposed to die. I sent her a bottle of your Balsam, and soon had the satisfaction to hear that she was much better. She continued taking it for a while and got

ENTIRELY WELL

and is living now, which fact is to be ascribed mainly to the use of the VEGETABLE PULMONARY BALSAM. Very truly yours,

JOHN CAPEN.

All there are many imitations, be careful to get the genuine. Price in large bottles, which are much the cheaper $1.00; small bottles, old style, 50 cts.

BATES COLLEGE.

BACCALAUREATE ADDRESS OF PRESIDENT CHENEY.

The *Lewiston Journal* publishes an abstract of the baccalaureate sermon delivered before the graduating class at Bates College by president Cheney on Sunday afternoon, June 27. The discourse was suggested by the text in John x, 11, "The good shepherd giveth his life for his sheep."

This is one of the many sayings in the Bible which do not reveal their full significance on a first or a second reading. Its lessons, when apprehended, is of surpassing value and importance, and may be summed up in a principle which constitutes the theme of the present address: *Our lives are the only gift to our race worthy of ourselves as men.*

We are only able to give the concluding portion of the sermon which is as follows:

Yet, inexplicable as it may be so far as God is related to it, the great truth is before our eyes continually in characters which we cannot mistake—that without the shedding of blood there is no true civilization. Whatever we have that is valuable in life, whatever of justice; the right to live, the right of person, the right of property; the right to learn of others and to teach others, the right to worship God, all come through others and through the lives of others. I do not undertake to say how long this spilling of human blood will continue. We know from the word of God that there is to be an end to it, and we all pray that that day may make haste to come. Until it does come we should lay ourselves upon the altar as ready sacrifices, if the times shall make such a demand upon us. The reasons for this will appear more clearly as we proceed.

Men will expose their lives for the sake of dumb beasts, shepherds for their sheep for instance, so that the text is literally true. A shepherd would hazard his own life to defend his flock. "To give his life," here means the same as "not to fly," or to forsake his flock; to be willing to expose his life, if necessary, to defend them.

A man will lay down his life for his friends. This fact might be illustrated by many instances of a friendship existing between one person and another. Among these instances is the friendship of Tigranes and his wife, mentioned in Xenophon's Cyropedia, when Tigranes offered to purchase his wife's freedom with his own life. The friendship of Nisus and Euryalus, of Damon and Pythias and of David and Jonathan are familiar instances. The world is full of such friendships. In thousands of cases men love women better than their own lives; and women, men; and men, men; and women, women.

3. We admit that our country has a full claim upon our lives. The government must be sustained at the sacrifice of the last man. Indeed, our government compels our service and that service must be redeemed at the risk of our lives, or we must suffer that which we regard as worse than death be branded as cowards and traitors. What do these centennial years signify? This decade may be said to have commenced in December 1873, and to end in December, 1883. On the sixteenth of December 1873, we said "One hundred years ago to-day the tea was thrown into Boston harbor." On the tenth of May, 1874, we said "One hundred years ago to-day the news reached Boston of the passage of the Port Bill." And so on through the anniversaries of the landing of General Gage at Boston; the meeting of the first continental Congress; the bold utterances of Patrick Henry, which made us not only a confederation of States but a nation; the fight at Lexington and Concord, the capture of Ticonderoga; the choice of Washington as commander-in-chief, and the battle of Bunker Hill. The years to come will be filled up with centennials of battles and sieges, and other events, and the decade will end in 1883 with the centennials of the treaty of peace with Great Britain and the resignation of Washington.

But there are recent events that remind us of the small value put on human life in time of war. What mean these visits, which, with fresh flowers in our hands and fresh tears falling, we have just made to the graves of husbands and sons, and fathers and brothers? The language of this strife between north and south which seems too long in coming to an end is the same language as that of our centennial; it teaches us that in the hour of our country's danger, our country is dearer than any number, however great of the lives of its citizens.

The death of the Christian martyrs, the willingness of Paul to die for the sake of his brethren, the Jews, still farther illustrate this point. As men, then, we are to make sacrifices for the benefit of our fellow-men, and these sacrifices are to include the laying down our lives to them, if on the whole, they can be benefited thereby. It is reasonable to judge that Christ does not intend to give up this world to his great enemy, the devil. It does not seem consistent that he should do it. He will ultimately bring order out of this confusion of things in the moral world, which troubles us the more because we are unable to understand it. And to bring about this grand result, foretold by prophets and wise men of old, Christ did not hesitate to lay down his own life, as the great and good shepherd of his flock.

But we are not to understand that by the sacrifice of life, expected of us as true men and women, we must actually die as the soldier dies in bloody strife, or the martyr at the stake. Not at all; true courage belongs to the battle-field. There are moral heroes in this world, and they are to be found in all the walks of life, from the highest to the lowest—men and women possessing their great souls in faith, in trust, in calmness, and in the fear of the Lord when great issues are at stake, or when great calamities fall upon them selves.

At the Holyoke disaster a few weeks ago; at the wreck of the Schiller, were many instances of that true courage with which men give their lives. I remember Garrison, saying "I am in earnest. I will not equivocate, I will not excuse, I will not retreat a single inch, and I will be heard." And I will say that with all that the world has learned, it has not yet learned how to deal with men who are in earnest, and who place upon their principles a value higher ... their lives.

I say ... I said in opening, our lives are the only gift to our fellow men worthy of us as men. All other offerings of sacrifices will appear small. It matters but little whether a man lives a longer or shorter time in this life.

The two reflections which follow naturally on this ... the sublime consistency in the doctrine of the atonement, in the good shepherd giving his life for the sheep who had gone astray; and, second, the best men who have lived have esteemed their lives of little worth if they must surrender their principles for the sake of them; and the Son of God himself gave his life to save our lives. To these facts we should look for right motives of action, and the motives which come naturally from the facts will lead us to the adoption of right principles for the government of our lives.

The discourse closed with a word to the members of the graduating class, urging them to Christian lives, alluding to the losses to the class and college by death, thanking them in behalf of the Faculty for manly deportment while in college, and invoking the blessing of God upon their future lives, and also with tender words for Whitehouse, a member of the class, deceased, and for Hon. E. Knowlton and Rev. G. T. Day, two of the trustees of the college, who have died within the year.

TEMPLE OF HONOR. The Grand Temple of Honor and Temperance of Maine held its annual session at Damariscotta Mills, June 24th, Grand Worthy Templar E. H. Cass of Bangor, in the chair. Officers present: J. W. Fuller G. W. R., F. Loring, G. W. T., R. M. Jones, G. W. C. The following Brothers were appointed to fill vacancies: J. J. Jones, G. W. V. T., R. Z. Winslow, G. W. U., G. S. Watson, G. W. G. The Committee on Credentials reported seventy-three representatives entitled to seats in this Grand Temple. The reports of the grand officers were read showing the Order to be in good condition. The G. W. T. in his report says, "A careful scrutiny of the returns since the organization of this Grand Temple, reveals the fact that the average expulsions yearly have been twenty-one. For the past year the expulsions have been only nine, showing a marked improvement in the quality of the newly initiated. On the whole the progress of our Order in Maine for the past year has been all, perhaps, that could be reasonably expected." The following officers were elected for the ensuing year: E. H. Cass of Bangor G. W. T.; F. Loring of Portland G. W. V. T., G. S. Watson of Biddeford G. W. R.; J. Mulligan of Damariscotta Mills Treas.; R. M. Jones of Vassalboro, G. W. C.; A. C. Hamilton of Rockland, G. W. U.; F. S. Hall of Bucksport G. W. G.; and these officers were installed by P. G. W. T. Whittier of Bangor. It was voted to hold the next annual session at Rockland. A vote of thanks was unanimously extended to the Brothers of Excelsior Temple for their fraternal courtesy and the generous entertainment furnished the members of this Grand Temple. The question of benefits coming up, was, after a prolonged discussion referred to a committee consisting of C. H. Clary of Hallowell, R. M. Jones of Vassalboro, and E. P. Hill of Bucksport, with instructions to investigate the matter and report, in their opinion, the best method to be adopted in regard to the beneficial system. The Grand Temple was then closed in due form.

Health is Capital.

Who can doubt it? Do we not every day see the vigorous and clear headed pushing on to fortune and the feeble and brain befogged, tarrying by the way? Health gives energy ... What a healthy mind conceives, a healthy body is prompt to execute. Difficulties which deter the invalid altogether the vigorous man surmounts at a bound. If we would be successful let us first be healthy. The initial step to be taken toward achieving ... that condition, is to rally the failing energies of the system. As a recuperant of decaying vital power, Hostetter's Stomach Bitters may be justly recommended in preference to all other tonics, since its superiority as an invigorant is the subject of daily demonstration. But it is more than a simple recuperant, it physical strength; it is a prompt remedy for bodily irregularities, particularly of the stomach, bowels and liver, and a reliable preventive of malarial fever, ... impure water, exposure and ... banishes the bad effects of which it invariably counteracts.

REPUBLICAN NOMINATIONS.

FOR GOVERNOR.

SELDEN CONNOR,

OF AUGUSTA

"THE COUNTRY STILL IN DANGER."

(From the Boston Journal.)

This is the startling title of a treatise issued by the American Missionary Association, and although there appears to be a special justification for its use in connection with the facts discussed, it is quite as true that the country is always in danger unless its good citizens are on the alert. Nations, and especially republics, are kept up by eternal vigilance otherwise they gravitate downward to ruin. The particular danger, though which is pointed out by the tract in question, is that which comes from the mass of ignorance at the South mostly but not wholly, confined to the blacks. According to the last census, out of a population of 18,578,435 the large proportion of 1,857,140—nearly one quarter—cannot read. In a self governing points of communities a ton long carry such a dead weight of ignorance inevitably tending to corruption without its bosom for any length of time. We have had sufficient evidence of that already. The evils of carpet-baggism and ratified misrule which have prevailed in the South during the last half a dozen years must be attributed jointly to the ignorance of one part of the population and the perversity of the other, and the intelligence well diffused, even that perversity would never have reached either the point of secession in the first place, or the lesser one of obstruction which we have seen in the second place.

We must therefore, reverse the process which have brought on the present deplorable situation. When four millions of the Southern people were slaves, their ignorance was merely a burden of their servitude. It did like a powerful negative Native—like a great social and political Dismal Swamp—on the white community, lowering its tone and sapping its moral vigor but its influence on the nation was not direct and positive. Now, however, these four millions are on a level with the rest—as in rights and powers, as their unrestricted votes become an enormous factor in the agencies of the times. It will become the prey of demagogues, abandoning corruption from every quarter, blocking the progress of the blacks and keeping up the miserable color line, which is equally disastrous to the temper and interests of the whites. The latter are already so much in the thrall of their prejudices that, even in many cases where they are able, they will do nothing for the education of the colored people, who must be helped from the North if we would not have all that our brethren died for on the field either lost or jeopardized for many dangerous years to come.

Among the beneficent agencies at work in this field is the Association whose tract brings the subject before us. It has under its charge seven institutions, chartered by different Southern States, for completing the education of half-witted pupils. It has seventeen normal, or graded, and thirteen theological schools for training young men and women as teachers. In all its schools it has at present nearly 10,000 pupils, while those for our students are now teaching 16,000 children. These few items serve to show the work it is doing, and we may add among well. Correspondents at the South who are by no means favorable to the political party espoused by the colored voters unite with one voice as to the good accomplished by these schools of the American Missionary Association, and as to the zeal and intentness with which the black children avail themselves of the privileges thus offered to them. We recently quoted the language of one who said that the sight of these children, ragged, but clean and bright, trooping to school over so large a part of the south, alone sufficed to offset all the other signs of gloom and discouragement which he saw around him. The Association, we hardly need say, has its resources wholly fed by voluntary contributions and we know of no better way in which a spare dollar or two to slip nothing of larger sums, could be more usefully bestowed.

Vice President Wilson who is a little annoyed at the comments and criticisms of a portion of the Republican press on his movements and utterances, has addressed a long letter to the Boston papers. He objects to the interpretation put upon his motives, disclaims any political intent in his recent journey through the South, and repeats his opinion as to the necessity of conciliating the Republicans who left the ranks in 1872 and 1874. He furnishes interesting statistics concerning his record as a campaign speaker, by which it appears that he has spoken in twenty-seven States and nearly fifteen hundred speeches.

General Roberts, Democratic candidate for Governor of Maine, is a distressingly powerful writer. He says "Twenty sister states are already beckoning her to join them." Do your duty in September Sister Maine, and let the twenty join you if they are hankering for your company so much.—*Boston Journal.*

The *Argus* goes back on its party nominee for Governor—by indirection, of course. It parades in parallel columns the war record of the two candidates, showing that while Connor served four years and came home a cripple for life, Roberts served but a single year, and came home to be a run down Democratic candidate for Governor, whipped out of sight by honest Sidney Perham.—*Bath Times*

One of the proprietors of the alpaca factory in Chatagua county, N. Y., having been presented with a fine pair of Angora goats, attempted the remarkable feat of taking the fleeces from their backs, and making a fashionable dress of the wool, between sun and sun. Operations were commenced at sunrise, and at an early hour in the afternoon the goods were ready for the dressmakers. Four ladies then made the dress, complete in every particular, and ready for wearing at sunset.

The *Harvard Crimson* of this week says that at present there is even less hope of keeping the Natural History School on Penikese Island open than there was when Mr Alexander Agassiz, who succeeded his father as director of the school, issued the circular on the subject. The *Crimson* further reports Mr Agassiz as saying very recently

"No further attempt will be made to run the school at Penikese, as, owing to its location, the extra expense attending the running of the school would provide for it anywhere else. A summer school limited to a few of the best students in natural history, connected with the colleges will probably be established next year (1875); but I doubt that a school at present seems of Penikese can be got, unless very largely endowed. The funds are already doubtful in order to feel that they can go on with it, as matters now stand."

THE MAN LOEDER.

SOMETHING THAT HAPPENED IN BOSTON SEVEN YEARS AGO.

The man, Loeder, who has made affidavit to certain of his statements concerning parties to the Beecher-Tilton suit, whose mentioned by the Boston *Globe* of Monday, which taken with the developments given in our telegraphic columns, shows the value of that "startling new testimony."

We have received an important communication from Mr. H. W. Morey, a gentleman of standing in this city, concerning Loeder, whose recent affidavit was made public after the close of the case for the defendant in the Beecher-Tilton case. Mr. Morey writes that he knows Loeder "only too well," and continues: During the year 1868, Mr. Joseph Loeder came to Boston and established a small upholstery store in one of our principal streets, and for six months did a moderate business. He was a good workman himself, and his employees were also good, and, apparently understood their trade. This was recognized by the ladies at the South and West, Ends, he was employed considerably by them, in putting down carpets, upholstering chairs, and repairing lambrequins, which latter he did to perfection, and consequently was frequently called upon and, we regret to say, did call into his hands. About this time, a lady living and moving in the best South End society, needing something done to her lambrequins, sent for Mr. Loeder, she having previously heard of him and his experience in his trade through a friend of hers. Mr Loeder came and estimated the probable cost, and spoke the day on which he should call for them. Everything, so far, was perfect by gentlemanly. Mercury, she thinks, was with her brother, who had been absent abroad many years unexpectedly returned and on the very day, as it happened that Mr Loeder was to call for the curtains. Of course he was in their drawing room, for the brother always had lots of business and he was very fond of having horses in New England.

The Masonic procession embraced Claremont Commandery K. T., Grand Lodge officers, King Solomon Royal Arch Chapter, Aurora and Rockland Lodges, of this city, and Moses Webster Lodge of Vinalhaven, led by the Vinalhaven Band. Large numbers of the fraternity from adjoining towns helped swell the ranks of the local organizations. A box containing the various papers and documents were placed in the corner stone. Music was furnished by the band and choir. The name "Church of Immanuel" was given by Pastor Rev. C. F. Rich and an able and appropriate address delivered by Rev. J. O. NEW YORK, June 29. A meeting of Democratic bolters was held last evening in Room No. 24 Cooper Institute. It was represented to consist of five delegates from each Assembly District. Benjamin Wood presided and ex-Assemblyman John D. Coughlin acted as secretary. As soon as the meeting was called to order several delegates called upon the committee appointed to prepare a plan of organization to report, but E. B. Hart, from that committee, said it was not prepared to do so. This created great dissatisfaction which was openly expressed by a majority of delegates. Ex Recorder Smith reported some resolutions denouncing Tammany, the reduction of laborers' wages and the appointment of non-residents to official positions in this city and providing for a committee of five to draft a plan for the reorganization of the Democratic party. After a short discussion the resolutions were adopted.

The Indictments Against Boss Tweed.

In the Court of Oyer and Terminer today before Judge Brady, counsel for William M. Tweed appeared for the purpose of making a motion to quash the existing indictments against him. The District Attorney and Wheeler H. Peckham appeared in behalf the prosecution to oppose the motion. Counsel for Tweed submitted a schedule of indictments against him for the quashing of which counsel for the defence assigned their reasons, and each point was replied to by Mr. Peckham for the prosecution. District Attorney Phelps and David Dudley Field were also heard, when the Court took the papers and reserved its decision.

The Testimony Given the [illegible]

The Usual Quantity of Rumors.

Loeder and Price Repeat!

THE "STARTLING EVIDENCE" [illegible]

THE JURY STILL OUT.

Loeder Arrested for Perjury, and Locked up for Examination.

NEW YORK, June 29. The peeping upholsterer of affidavit fame (Joseph Loeder) was arrested by Officer Shaughnessy, of the Third District Court, on complaint of Colonel Beecher, for perjury. Price appeared against him, making affidavit that he did not know Loeder previous to '72, and knew nothing about Tilton's house until recently. He said that Loeder told him that now would be the time to make some money. Judge Morris appeared for Loeder, and Tracy and Hill for the complainant. Judge Riley ordered both Loeder and Price to be locked up for examination.

As Morris Says.

BROOKLYN, June 29. Already some of the scandal talk is about the probability of a new trial. Mr. Morris said yesterday that his side were ready to begin within an hour after the discharge of the jury, using the testimony of Loeder and Price. The documents presented by Tilton's counsel in the offer of testimony, and Loeder, Price and Ley's were copies of the original affidavits. Yesterday Shearman complained to Judge Neilson that the originals had not been used; and Morris promised to produce them.

A Reported Scene Extraordinary.

NEW YORK, June 29. The following extraordinary scene is reported as having occurred yesterday at the Brooklyn city court. About 4 P. M., those who happened to be in the corridor, were astonished to see Shearman, Murray and Bigelow and lawyer Abbott's clerk walk briskly to the court room adjoining the one in which the jury were, with two windows looking directly into two windows of the latter room, distant about 20 feet. An attempt to follow them showed that they had secured the door behind them by placing a chair under the knob. When a point was found from which a view of the interior of the room could be obtained, it was seen that Shearman, Bigelow and Abbott's clerk were engaged in an animated debate in front of one of the windows mentioned, while Murray was at the other one, conversing in a loud voice with Christo her Fritter and Geo. Hull, who were sitting at the window opposite. As this the reporters burst in the door and entered the room, when Shearman, Murray and the clerk instantly made their exit. Bigelow remained nearly half an hour, there, the reporters watching him closely, when he went left in apparent disgust. As soon as Fritter saw the reporters, he closed up the blinds. A view of the room subsequently obtained from a house on Boerum Place, showed that the twelve were again in consultation.

The Proceedings in Court—Verbal Message from the Jury.

BROOKLYN, June 29. The Beecher-Tilton Jury were taken down to one of the courts, second floor after breakfast this morning. Judge Neilson opened the City Court at 10 o'clock this morning, and took up the cases on the calendar. Deacons Murra[y] and Caldwell were the only representatives of Plymouth church present, and none of the Tilton party were in attendance. At 10.30 the Court officer in charge of the Jury brought a verbal message from the Jury to Judge Neilson, but he refused to disclose its character. The general impression is that the Jury will be brought to the Court to-day and discharged, as they have already intimated to the Judge that they cannot agree.

Excitement over Loeder's Recantation.

An exciting scene is anticipated. An immense crowd is assembled in the Court House, along the corridors and in the hall down stairs, discussing the new situation which has turned up in the breaking down of the carpet-layer's story about Beecher and Mrs. Tilton. The sidewalks in the vicinity of the Court House are lined with gazers at the photograph man taking the picture of the front of the building. The police are busy hurrying on the cars and pedestrians. A man in the corridor Redding to the Court-room is exhibiting specimens of medallion busts of the defendant in alabaster.

Mr. Beecher's and Moulton's Testimony to be Sent to the Jury.

At quarter to 12 Messrs. Morris and Pryor stepped up beside the Judge and whispered to him. His Honor despatched a messenger for the defendant's counsel (Shearman), who was soon found. A consultation between the Judge and the lawyers then took place. It is understood that the jury requested to be furnished with the testimony of Beecher and Moulton. His Honor was heard to remark that the testimony was in two books, and the books could not be sent. Pryor objected that there was evidence of other witnesses in these books. His Honor met this difficulty by the suggestion that the evidence should be torn out and sent to the jury, to which the counsel on both sides agreed. Counsel then left the bench, and went into the ante-chamber, where directions were given to the clerk to prepare the evidence as suggested. When Shearman was leaving the room, the reporters inquired what was the news, to which he replied he was in a great hurry, and could only stop to say the jury had come to no decision yet.

Loeder Makes a Retraction.

The carpet-layer Loeder has made an affidavit retracting his story of what he saw in Tilton's house, and declaring that he never saw any impropriety between Beecher and Mrs. Tilton, and that when he looked into the room they were engaged in prayer beside the lounge.

All the Testimony Sent to the Jury.

At 2 o'clock, by consent of all the counsel Judge Neilson sent up the entire testimony, with instructions not to read the introductory matter or counsels' arguments. A copy of the Judge's charge was also sent to the jury. From this it is the opinion that the jury will spend another night out.

The Judge still declares that he will not send for the jury until he is convinced that an agreement is hopeless.

Loeder Looks Frightened.

An Argus reporter interviewed Loeder this afternoon. Loeder denies that he saw any improprieties between Beecher and Mrs. Tilton. He says what he told the reporter was greatly exaggerated. The reporter says Loeder looked like a thoroughly frightened man.

The Jury Not to be Interrupted.

Judge Neilson says he will not interrupt the jury in their deliberations to-night.

Price's Affidavit Corroborating his Former Statements.

Price's affidavit, published this afternoon, says it is not true that he ever worked with Loeder, or ever worked with Loeder in Tilton's house, either in the month of October, 1869, or at any other time; nor is it true that he ever saw Henry Ward Beecher in said house, and he has never seen Mrs. Elizabeth R. Tilton either at said house or elsewhere to this day.

Dudley's Domain.

Street Commissioner Dudley has a force of about fifty men and fifteen horses now at work, mainly on the West side of the Kenduskeag. They are doing several much-needed jobs under his supervision, and leave things in much better shape than they find them.

Among the improvements recently made, six hundred loads of earth have been hauled onto Railroad street, between Main street and the depot, and this is being covered by gravel for which not less than two hundred and fifty loads will be required. A sidewalk has also been made on the upper side of the street, and a cross walk will run from the end of this sidewalk to the depot. This street is a hundred per cent. better than it was a month ago.

On Cedar street a fine concrete walk has been laid, from Main to First street, passing St. Mary's Catholic church.

On Middle street curb-stones have been put in, and the gutters have been fixed so that the curbs furnish one side for the drainage of the water instead of allowing it to settle. On the west side of the street a concrete walk is to be laid, from Columbia to High street.

Grading has been done on Larkin street, including the roadway and sidewalk. Other similar work has been done on other streets, all of the most satisfactory character.

Opposite the residence of Charles Hayward, Esq., on Summer street, the city has laid a concrete cross walk. In front of his residence curbstones have been put in and Mr. Hayward is laying a brick sidewalk.

Across Main street, from Hodsdon street, a stone cross walk is to be laid.

On French street six men are at work laying the concrete walk from Somerset to Garland street.

The principal work for this season on the West side is nearly completed, after which the forces of the street commissioner will give their attention to the back streets and roads leading from the city. Next in order will follow the carrying out of projected improvements on the East side of the stream.

VEGETINE

Purifies the Blood, Renovates and Invigorates the whole System.

Its Medical Properties are

ALTERATIVE, TONIC, SOLVENT AND DIURETIC.

VEGETINE is made exclusively from the juices of carefully selected barks, roots and herbs and so strongly concentrated, that it will effectually eradicate from the system every taint of Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the Stomach, and all diseases that arise from impure blood. Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout and Spinal Complaints, can only be effectually cured through the blood.

For Ulcers, and Eruptive Diseases of the Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scald Head and Ringworm, VEGETINE has never failed to effect a permanent cure.

For Pains in the Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhoea, arising from internal ulceration, and uterine diseases and General Debility, Vegetine acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration, and regulates the bowels.

For Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness and General Prostration of the Nervous System, no medicine has ever given such perfect satisfaction as the Vegetine. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by Vegetine have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact, Vegetine is the best remedy yet discovered for the above diseases, and is the only reliable BLOOD PURIFIER yet placed before the public.

PREPARED BY

H. R. STEVENS, Boston, Mass.

What is Vegetine?

It is a compound extracted from barks roots and herbs. It is Nature's Remedy. It is perfectly harmless from any bad effect upon the system. It is nourishing and strengthening. It acts directly upon the blood. It quiets the nervous system. It gives you good, sweet sleep at night. It is a great panacea for our aged fathers and mothers, for it gives them strength, quiets their nerves, and gives them Nature's sweet sleep—as has been proved by many an aged person. It is the great Blood Purifier. It is a soothing remedy for our children. It has relieved and cured thousands. It is very pleasant to take, every child likes it. It relieves and cures all diseases originating from impure blood. Try the VEGETINE. Give it a fair trial for your complaints, then you will say to your friend, neighbor and acquaintance, "Try it; it has cured me."

VEGETINE, for the complaints for which it is recommended, is having a larger sale throughout the United States than any other one medicine. Why? Vegetine will cure these complaints.

VALUABLE INFORMATION.

BOSTON, Dec 12, 1869.

Gentlemen—My only object in giving you this testimonial is to spread valuable information. Having been badly afflicted with Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing it to be a blood disease, I took many of the advertised blood preparations, among which was any quantity of Sarsaparilla, without obtaining any benefit until I commenced taking the VEGETINE, and before I had completed the first bottle I saw that I had got the right medicine. Consequently I followed on with it until I had taken seven bottles, when I was pronounced a well man, and my skin is smooth and entirely free from pimples and eruptions. I have never enjoyed so good health before, and I attribute it all to the use of Vegetine. To benefit those afflicted with Rheumatism, I will make mention also of the Vegetine's wonderful power of curing me of this acute complaint of which I have suffered so intensely.

Fly away swallow, fly into the blue,
I see the hawk ... below,
I've been nearer the heaven than you,
Nearer the secret the wise men knew
Nearer the dawning where dreams come true,
Higher than star or swallow

Down the waves of a beautiful bay
I ... fled into my heaven,
Down through a shoreless day
Under the gates that seemed lifted for ave,
Under low music by winds borne away,
Into the fading even.

All the sailing the watch had been kept
By eyes of a passionate glory
Till mine could wonder they ever had wept,
Till the nameless moult stilled and slept,
... out, if its travail a new life crept,
... of that worldless story

Till the measureless joy and the golden peace
And the crimson sunset blended
And we drifted, drifted into the peace,
Drifted into the sunset fleece,
Into the depths where currents cease,
And storm and swell are ended

What if we fell from the heaven we knew,
Thou and I, O swallow?
Song ... have caught a roundelay new,
Touched with a rapture fine and true—
... star in that infinite blue,
But ... arrow follow

I who fell from a grander flight
Keep through awful losing;

Reaching never beyond the sight,

FURTHER PROOF.

CAPE ELIZABETH, Nov. 22, 1874

Prof. Alphonse Hiller

Dear Sir: This is to certify that I have been a torture sufferer from inflammatory Rheumatism for the past three years, and during the last year my sufferings have been beyond description. I have tried everything I could hear of but obtained no relief until I tried the Diamond Rheumatic Cure. It is truly a wonderful remedy. Respectfully yours, AMANDA M. BROWN.

Mrs Capt. W... witnesses to the above.

The discoverer of this medicine walked the aisles of the hospitals of London and Paris for the past twenty years, making rheumatism a specialty, and the prescription from which this remedy is compounded is all the ever used in the treatment of this disease. In simple cases sometimes one or two doses suffice. In the most chronic case it is sure to give way by the use of four or five bottles. Put up and prepared in the Main Laboratory Association by J. W. CONNER 143 Court St., Boston. For sale everywhere. If it happens that your Druggist has not got it in stock, ask him to send for it to the wholesale agents,

Pierce's Rheumatic Cure

FOR RHEUMATISM & NEURALGIA.

A WORLD ACKNOWLEDGED CURE.

This remedy is the result of the research of one of the proprietors who had been a great sufferer for years, and who had tried all the advertised remedies and the skill of many physicians without obtaining relief. A radical cure was obtained, and a ... remedy ... his friends and acquaintances, without an exception, have induced him to put it before the public. It was put up without a thought of making it an article of merchandise, but the numerous and increasing demands for it, as its benefits become known, have induced him to advertise it for the benefit of sufferers like himself.

It is an infallible remedy, if persistently used, for those painful maladies of Rheumatism and Neuralgia, as testimonials too abundant to give in this advertisement, will show. Among these testimonials are those of Mrs. Judge Appleton, R. M. Tolman, J. M. Morrill, (foreman of Hinckley and Egery's Foundry) C. H. Emery, and others of Bangor, W. J. Mitchell, (of the Eveleth House, Moosehead Lake.) Alvarid E. Orcutt, of Eddington, a sufferer for fourteen years, and at times helpless, having tried the best known remedies and three skillful physicians without effect, after using seven bottles, has been restored to health, and gives his grateful testimonial.

It is an internal remedy, acting on the blood, freeing it from impurities and imparting free and healthy action to the system. It may be used by children and those of the most delicate constitution with perfect safety. Full directions with each bottle.

Price per bottle $1.00. Liberal discount to the trade. For sale by Druggists generally,

THE NEW REMINGTON

SHUTTLE SEWING MACHINES,

Manufactured at the Celebrated REMINGTON ARMORY, Ilion, N. Y., are the Latest and Best

The REMINGTON SEWING MACHINES are rapidly becoming general favorites, wherever introduced. While it is not our purpose to underrate any other machine, we do claim that the REMINGTON is so complete as to overcome all the principal objections made against Shuttle Sewing Machines. The ... which has long been sought after by probably every Sewing Machine Company, has been obtained in the REMINGTON, namely: An even, round, durable stitch on all kinds of goods, coarse or fine, without the use of COG-WHEEL GEARS, ROTARY CAMS, or LEVERS, and smoothness, ease, and silence in working. Its perfection of Design and Manufacture makes it the simplest, the most speedy, the most durable in the market.

Manufacturers of Clothing, Shoes, etc., etc., will find just what they want in our No. 2 Machine, which is superior to all others.

All kinds of second hand Machines exchanged and sold on time, on the most reasonable terms. Perfect satisfaction guaranteed.

"Mr R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Persons having their address at the General Delivery can also have their letters sent, but it is much more convenient to have the street and number on, and they will be delivered earlier than if the same is put on at the office. Carriers make two deliveries daily, the first trip supplying the extremes of their routes.

Collections are made morning and evening in season for important mails—the down town boxes fifteen and the up town boxes thirty minutes before closing mails at the office.

Holidays and Sundays the Carrier's Window will be open for the delivery of letters from 8½ to 9½ A. M. Also open evenings from 8½ to 9 P. M.

Any irregularities in the Carriers' department should be reported to the office.

No additional charge will be made for printing the name and request to return, across the left hand upper corner of the envelopes furnished by the Post Office Department, (samples of which may be seen at the Cashier's window,) when ordered in lots of not less than 500.

A request for the return of a letter to the writer, if unclaimed within thirty days, or less, written or printed, with the writer's name, post office and State, across the left end of the envelope, on the face side, will be complied with.

The public are earnestly recommended to procure Stamped envelopes with printed return request, as the expense is less, and letters thus endorsed, if not delivered to the person addressed, are returned to the writer free of charge.

First class envelopes of above furnished at $23.80 per thousand
